

OnOff L - pedestrian crossing

Code	Colour	Dimensions	lamp
22054111-00	aluminium	1400x350x4120	LED 18X1.4W - solar+batt
22054011-00	aluminium	1400x350x4120	LED 18X1.4W - 230v
22054113-00	aluminium	1400x350x4120	LED 18X1.4W - solar+batt-230v

OnOff uses 18/36 LED lights, 105lm/W, option to change the light beam as required (pedestrian crossings, private gardens, small paths).

Energy efficient, 2.5W consumption.

Solar power version with accumulators (timeline limited by the number of accumulators), or solar energy-accumulator version with mains voltage conversion system (= HYBRID).

LED light version only with 120° elliptical lenses.

Housing: in steel and aluminium with base and log bolts to be purchased separately.

Solar version equipped with 3 batteries, 9Ah, for a total of 27Ah

230V version equipped with electric gear box containing the ballast.

Version with no electric gear box and ballast acc. 22092035-00 (it powers up to 2 OnOff L).
