

OnOff M - wide beam

| Code | Colour | Dimensions | lamp |
|-------------|-----------|---------------|-------------------------------|
| 22054116-00 | aluminium | 1000x350x2920 | LED 24x1.4W - solar+batt |
| 22054016-00 | aluminium | 1000x350x2920 | LED 24x1.4W - 230v |
| 22054017-00 | aluminium | 1000x350x2920 | LED 24x1.4W - solar+batt+230v |

OnOff uses 105lm/W LED lights, option to change the light beam according to need (residential areas, alleys, green areas around hotels).

Excellent energy savings.

Solar power version with accumulators (timeline limited by the number of accumulators, option to install presence sensors) or solar power- accumulator version with mains voltage conversion = HYBRID.

Option to use a warm light LED model.

Housing: in steel and aluminium with base and log bolts to be purchased separately.

Solar version equipped with 2 9Ah batteries for a total of 18Ah

230V version equipped with electric gear box containing the ballast.

Version with no electric gear box and ballast acc. 22092035-00 (it powers up to 4 OnOff M).
