Recessed spotlights are being increasingly used as decoration items where light, design and materials create innovative and prestigious solutions. The frame in coloured glass, with either round or square profile, makes Glass an ideal solution to upgrade or enhance the lighting system with a touch of personality, choosing from a range of bright colours or more neutral tones. Glass is equipped with 230V LEDs for outstanding performance and low energy costs. Available In three light beam angles to provide either general or accent lighting.

Housing: spotlight with coloured glass.

Special anti-glare optics for better comfort.

Ideal to replace products with a new version without the need to change existing cut outs.

On request: version with 24 and 60 degrees.

LED 7W - 230V - 450lm - 2750k - CRI 80 - 40000h
