Flower LED is a family of adjustable recessed spotlights with a round shape, particularly suited to shed wide-beam light over prolonged periods and long service life of lamps. Flower LED significantly improves the management of retail stores with all the advantages of LEDs.

These recessed spotlights are available in two sizes and represent a great quality leap forward in interior lighting design.

Housing: Adjustable die-cast aluminum with cooling fins. Complete with brackets for recessed LED 3000/4000K - 2000lm - 35W - 50.000h.
