3213 Lucerna R3 with diffuser

Housing, lid, spokes, and connection for die-cast aluminium pressed poles.
Diffuseur: In shatterproof and self-extinguishing V2 polycarbonate, UV-stabilized, frosted inside for higher dazzle control.
Reflector: in 99.85 turned aluminium, anodically oxidized and polished.
Coating: the standard liquid immersion coating consists of a first metal surface pre-treatment stage, a successive epoxy cataphoresis corrosion and salt resistant coating, and a final layer of bi-component acrylic liquid UV-stabilised coating
Electric gear: Versions with electromechanical ballast. 230V/50hz power supply with thermal protection. Flexible cable terminated with admiralty brass clamps, double silicone insulation. 2P terminal block with maximum allowed lead cross section of 2.5 mm².
Equipment: Nylon wiring plate, 30% fibre glass, removable, utensil-free, for quick maintenance. Standard knife switch, which enables to cut off the power supply automatically in case of maintenance. Socket-pin connector for quick connection to the line.
Supplied with knife switch, which enables to cut off the power supply automatically in case of maintenance.
Stainless steel screws. Steel slide-away hinge, 25/10 thickness, with safety brackets against the accidental closure of the lid.
