3303 Visconti

Visconti is the new urban lighting system that enables designers to get the best performance from the new light sources (LED and white light), with all the quality of the 'made in Italy' design.

The fixture's exclusive design is enhanced with an innovative pole, which is a visible sign of the changes occurred in the new town planning and redevelopment projects.

Visconti is best suited to illuminate main streets in residential centres. As a wall-mounted fixture, it is the perfect solution to establish a dialogue between classic and modern architecture, while the suspended version enables a calibrated and wise use of light.

All the experience and quality of Disano products lie in the materials and technology of its products combined with easy installation and maintenance.

Housing/Frame: in die-cast aluminium.

Optics: In 99.85 aluminium, anodically oxidized and polished.

Diffuser: tempered glass, 5 mm thick, thermal shock and impact resistant (UNI EN 12150 tests - 1/2001)

Coating: in different stages. By epoxy cationic electrocoating, resistant to corrosion and saline environments. Second coating using graphite grey acrylic resin, UV stabilized.

Standard supply: in case of maintenance, the frame remains suspended by way of brackets once opened. Standard knife switch and quick connector for connection to the line. Wiring on removable tray for easy maintenance.

Regulations: Produced according to applicable EN60598-1CEI 34-21 standards, degree of protection according to EN 60529 standards.
