1411 pole to be sunk into the ground

Pole in hot galvanized steel, thermosetting polystyrene powder coating. Base, inspection window and decorations in pressed die-cast aluminium and painted. Supplied with inspection window, 2 protection fuse holders, 2 fuses (16A), removable terminal block. Stainless steel screws.

NOTE: Before selecting the appropriate pole, make all necessary wind pressure resistance tests, pursuant to the Standards or Legislative Decrees in force in the countries where the pole will be mounted and based on the assumed loads specified in Standard EN 40-3-1. An accurate and suitable protection or insulation of the surfaces involved is recommended to avoid any direct contact with the new masonry or concrete screed
